

LETTER IN SUPPORT OF THE PEOPLE OF OAXACA

(sign this letter – web link below)

http://www.friendsofbradwill.org/wp-content/plugins/petitions/wp-petitions.php?action=show&petition_id=2

As fellow media makers and artists, we are writing to honor the memory of independent journalist, filmmaker, and respected activist Brad Will, who was brutally murdered while filming the grassroots popular movement in Oaxaca, Mexico.

Along with Brad, six other people were killed this past week by officials of the illegitimate government of Ulises Ruiz and the federal forces that are now occupying Oaxaca. Among them were: Emilio Alonso Fabián (professor), José Alberto López Bernal (nurse), Fidel Sánchez García (construction worker) and Esteban Zurita López.

We are extremely alarmed to see that rather than cracking down on the violent paramilitaries who have been launching regular attacks on the people of Oaxaca, President Vicente Fox is using these murders as a pretext for escalating violence against the popular grassroots organization of the people of Oaxaca.

In solidarity with the people of Oaxaca, we add our voices to these demands:

1. Ulises Ruiz out of Oaxaca!
2. Immediate withdrawal of the occupying federal forces from Oaxaca!
3. Immediate and unconditional freedom for all detainees!
4. Justice for all murdered compañeros and punishment of guilty parties on all levels!

We make these demands in support of the Oaxacan people's efforts to establish a popular government that recognizes local traditions and values.

JUSTICE, FREEDOM, AND DEMOCRACY FOR THE PEOPLE OF OAXACA!

I don't think I met or knew Brad. But his story is not that different from a lot of friends of mine who venture into dangerous areas seeking not only to expose the truth, but explicate it in a sensitive way. It's completely horrifying that the major news media can't get behind the great work he was doing.

The role of state-sponsored death squads in suppressing the risen people goes back at least to Kenya during the Mau Mau rebellion against British imperialism. The political murder of Brad Will needs to be fully investigated. Misinformation is being spread by the U.S state dept. and the mainstream media.

This is bullshit. I never heard of Brad Will before this, yet now I cant stop thinking about how a good man died for greed and selfishness. La Ciudad de Oaxaca is a jewel on the face of the earth, diverse, dignified, culturally rich and hospitable. I fell in love with the place in 1996. Many including myself knew Brad as a brave, fierce fighter, who gave all he was worth, and then some more, in the struggles for justice, liberation and the earth that he participated in and documented. Brad was a musician too; and after his death, Brad is still alive, still singing, still urging us, with the words and songs and especially the compassionate, uncompromising actions of his life, to fight, for all we're worth - as he did - to defeat those ugly powers that threaten truth, life and justice. After Brad's death, much has not changed. Justice for the people of Oaxaca is still threatened, first by the corrupt state dictatorship of Ulises Ruiz, and now also by Vicente Fox's violent federal police assault that Brad's death may have helped to precipitate but certainly cannot justify. Life on earth is still threatened by corporations that recognize no social or environmental limits to their hunger for profit, and by the governments who serve them; some of them, like Coca-Cola and those behind "Plan Puebla Panama," stand to benefit from repression of the popular struggle in Oaxaca. Truth is still threatened by corporate-controlled media guilty every day of misrepresenting, covering up and playing down the authentic stories and "voices from below" that Indymedia journalists like Brad have fought to free from silencing and broadcast into public awareness. Brad will be remembered by many he has left behind. He will live on with us in our struggles to come. We will continue singing and fighting for truth, justice, liberation and the earth with Brad Will, and with the many Oaxacans -- who are not nameless, but are too often forgotten by those of us living in "the North" -- who have been killed during the course of this beautiful, awful struggle.

I truly believe that, we, in the so-called "peace movement" have not done our work to stop the carnage around the globe, that we talk about. Maybe if we did do our work and park ourselves "full-time" in the public in mass solidarity against the killing, maybe this fallen journalist, and the others who were felled that day would still be among the living. We need to stop the "part-time" protests, Now! Iraq, Palestine, Lebanon, Afghanistan, now Mexico. All we do is complain on the internet from the safety of our homes, while people are dying brutally. Signing this petition means little, if we do not spill out into the streets and stay there until we are taken seriously. I recall 1971, and the anti-war movements. What ever happened to us? Nations around the world have not lost respect for our leaders; they have lost respect for the American people. We do not even respect ourselves enough to put our money where our mouths are- Of course, I exclude Cindy Sheehan from this comment. One person can lead the horses to water, but one person can not make the horses drink.

The current Mexican Government is so corrupted, the PAN and PRI parties have a liason agreement of corruption. They did not respect the presidential mexican elections imposing Calderon eventhough everybody know Lopez Obrador won the elections, they had a fraudulent elections in Tabasco Mexican state, arresting and torturing innocent people to force them to say what the government wanted, they killed and raped women in the recently Atenco rebellion, they are now killing people in Oaxaca and not respecting human rights and individual freedom. I give all my support to People of Oaxaca. Ulises Ruiz has to go, he is a murder and corrupted governor

La rebelión de Oaxaca es hoy el símbolo de la resistencia ciudadana del mundo a someterse a los poderes e intereses fascistas; que se han adueñado del espacio de la política gracias a la corrupción que promueven, y a la negligencia de la población. Es un llamado a la ciudadanía para que exija el respeto a los derechos humanos, y el cumplimiento de los compromisos que tienen los gobiernos por el hecho de ser representativos (¿demócratas?). Es un llamado a la ciudadanía para recuperar su dignidad originaria; aquella que refiere su participación en la construcción del bien común

Brad Wills worked for many years in New York to transform urban wasteland into beautiful gardens! Lets honour his memory and defiant creativity by planting hope at embassies across the world! Lets see how it looks to the world when the authorities are ordered to disrupt altars, uproot plants and flowers and destroy life!!!! It will bring home the reality of the situation in Oaxaca to many people!!!In tribute to the many seeds of justice,optimism and life-force sown by our tragically fallen companero, lets go forth and multiply!!!!!! I never knew Brad personally, although I do seem to remember him as someone present at various events I could make it to in the city. That is irrelevant. What is relevant is that Brad has set a very stark, a very real and a very pressing standard to live upto for those who truly desire to call themselves "active-ists". I know it has given me a real kick in the complacency, a wake up call to get up off my ass again and get back to the very serious work of fighting for what is good and right left in this pitiful, struggling world. In the words of The Last Poets: Blessed Are They who struggle Oppression is worse then the grave Better to die for a noble cause then to live your life a slave! Condolences and Solidairty to ALL our Fallen (I think of Rachel Corrie and Carlo Guillianini but I know the numbers are numberless and largely anonymous) Keep on keeping on to all who remain and to quote (yet another quote) the graffiti on the street walls of Seattle November '99: Remember We Are Winning!

My organization which represents millions of women around the world is outraged at the brutal murder of the Indymedia journalist, Brad Wills. people under the sky were also very much the same-everywhere, all over the world, hundreds of thousands of millions of people just like this, people ignorant of one another's existence, held apart by walls of hatred and lies, and yet almost exactly the same-people who had never learned to think but who were storing up in their hearts and bellies and muscles the power that would one day overturn the world. To think that a comrade from the United States had to die, fighting to expose the brutality of the Mexican state in response to legitimate demands for dignity and autonomy, before Oaxaca "made" the international press, is devastating. It is devastating to think that any Oaxaceño had to die fighting for the right to determine their own future, their present. Lets not be silent in the face of the dehumanization of our brothers and sisters by the hands of those who seek unlimited economic growth at the expense of human and non-human life, and dignity, and peace. Lets not be passive, inactive. And lets not lose hope. Lets create another way to do politics. Let us - artists and writers, media makers and musicians, teachers, healers, students, thinkers, children and their grandparents - lets create another world, where many worlds can live together.

There should be a full investigation into the assassination of Brad Will and all others killed in Oaxaca, and all those responsible should be tried, sentenced and jailed for the murder of innocent people. I fully support the people of Oaxaca in standing up for their rights. This situation should be settled amicably through negotiations, NOT through use of bringing in armed police, military and/or through use of repression, violence and force. Too many people have already died!! My friend Brad was only there to help people and was there to as a journalist to report on the situation and film a documentary. The evidence is there on the film that he recorded as he was killed and which shows the men who shot him. No more deaths and bloodshed. For the sake of Brad and all the others who have been brutally killed (including children) - please use PEACEFUL means to resolve this situation. No more repression and violence and no more deaths!!! Con todo respeto debido a su decisión de documentar en Oaxaca, pinche Will. Aunque, muchos lloren su muerte, esto no está de él. Esto está acerca de catastrofe de estado-naciones que demanda el control sobre personas y comunidades autónomas. El gobierno de México empezó este acciones antes el 1994 levantamiento en Chiapas y continuará hacerlo hasta que paremos el corazón de la máquina. Debemos tomar nuestro propio individual y comunidad de autonomia antes podemos sostener los maestros de Oaxaca quien ha estado luchando esta pelea (con mucho más prosperidad que los maestros en Gringolandia) durante muchos años. Mexico is becoming a police state, using force to control its protesters, using the US Republicans to help rig its elections. We need more people like Brad Will to expose all that's happening.

I truly regret the death of Brad Will, and I hope his assassination is not the only reason to be alarmed at the situation in Oaxaca, but may we be alert to what is going on in Mexico, just below the border, a country to which the US is strongly linked economically, politically and socially.

Amigos de brad: Hola, soy de México y tengo 18 años, tal vez no entiendan mi mensaje, pero lo hago de corazón, con coraje y dolor. En este último día del año me me lavó las lágrimas de tristeza por mi país corrupto y violento, en el que sucedieron varias tragedias, tristezas y alegrías en lo personal y en el ámbito social, que quedarán en la historia de un 2006 que deja un país dividido, y sumido en lo profundo de un pozo, brad forma parte de esta historia, de uno de los conflictos más difíciles en este año, de este doloroso 2006 que se va, y personalmente es la pérdida que más me ha causado dolor aunque nunca lo conocí, y solo por el simple hecho que admiro lo que hizo y me identifiqué con sus ideales, así les aseguro que brad se ha quedado en nuestra memoria y en el alma y la historia de los oaxaqueños, y así mismo pedimos justicia, esa justicia para brad, las otras víctimas y el pueblo de Oaxaca, por último quiero agradecer a brad donde quiera que este lo que hizo por los oaxaqueños y por su vida de entrega y mis más sinceras condolencias a su familia y amigos....viva brad ¡¡¡ presente ¡¡¡ la lucha sigue...
